RGB Spectrum Wins Product of the Year and Install of the Year Awards

ALAMEDA, California – November 2, 2020. RGB Spectrum announced today that System Contractor News (SCN) has named RGB Spectrum's XtendPoint KVM-over-IP extender Product of the Year. SCN also awarded the Install of the Year award to RGB Spectrum for the deployment at Dubai International Airport (DBX).

RGB Spectrum's XtendPoint KVM-over-IP extender for multi-user control of remote systems was announced on June 30 of 2020. XtendPoint allows operators to control remote systems across a room or worldwide enterprise, supporting one-to-one, many-to-one, and many-to-many configurations at low bit rates and low latency.

Dubai International Airport is the world's busiest airport for international passenger traffic, handling more than 88 million passengers a year. Dubai Airport's new Airport Operations Control Centre (AOCC) houses several teams managing airport operations 24/7, to providing a user-friendly, flexible video wall solution for operators to view live visuals and data for monitoring and collaborative decision making. RGB Spectrum's *MediaWall® V* 4K display processor powers the AOCC's massive 55 screen video wall. The *MediaWall* V processor was chosen for its exceptional image quality, real-time performance and embedded architecture, which reduces the vulnerabilities of hacking and tampering of PC-based processors.
